

2nd Report for International Help from Abobo Health Centre YEAR 2021

We are happy to send you this second report of your important contribution for some running cost for our Health center in this year 2021.

This second report is regarding the three months from April until June 2021.

In this period there have been 55 referrals to Gambella hospital with our ambulance and 674 children less than 5 years have been seen in our facility by the Health Officer. The social support during these three months has been given to some needed cases (you can see the list of the beneficiaries from the invoices). Among them we will explain to you the particular case of one child Fitsum Ceno.

The maintenance team has been cleaning the external areas of the health center as well as trying to repair and maintain equipment and material in different rooms, particularly the most needed ones, like maternity department.

The ambulance in this quarter has undergone a general service and particularly the front seats and the seats for the patients had to be remade and covered, as you can see from the photos as well as from the invoices attached.

We have received from International Help 900 Euros each month for the three months, which means 129,600 Ethiopian Birr (EB).

Please find here the detail of the expenses up to now:

		Planned Birr/ month	Planned Euro/ month	Expended in this period (April- May-June) Birr	Expended in this period (April- May-June) Euro	Expended up to now (January- June) Euro	Planned Birr/year	Planned Euro/year
1	Salary of one Health Officer	23,000	480	86,925	1,810	2,998	276,000	5,750
2	Salary of Driver and Maintenance Head	11,000	230	39,491	822	1,385	132,000	2,750
3	Social support	3,000	63	8,485	176	284	36,000	750
4	Ambulance spare parts	1,666	35	5,499	114	629	20,000	417
	Total	38,666	808	113,925	2,922	5,296	464,000	9,667

*The calculation is done based on the official change 1 Euro = 48 Ethiopian Birr

Total received for the quarter from International Help (Euro)	Total expended for the quarter (Euro)
2700	2922

Here is Tamrat Mekete, our Health Officer checking a child at pediatric OPD

Mothers and fathers waiting in front of the pediatric room with their children

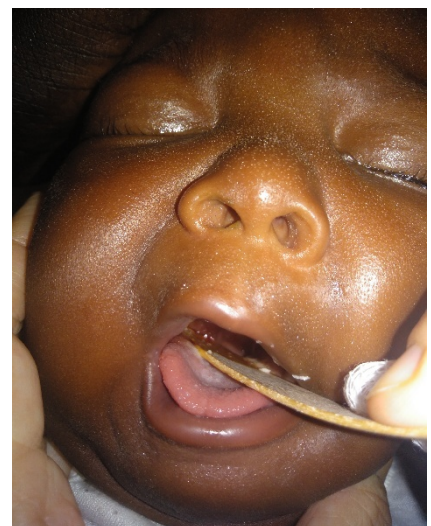

Addisu Ergena is the ambulance driver and also maintenance head

Aberra from the maintenance staff group, here painting and renewing the delivery bed

Social Support: the history of Fitsum Ceno

This child Fitsum Ceno was born with a congenital malformation: a cleft palate.

We have been following him since his birth until now. Because of his difficulty in feeding (he was unable to suck from his mother breast) we have been providing him with weekly supply of formula milk and regularly monitoring his growth.

Now the child is big enough to be operated and we started sending him for proper assessment by Pediatric surgeons in Jimma Hospital .

The specialist at this University Hospital though has decided to refer the child once again to a higher level Hospital in Addis Abeba.

Therefore we have already contacted a proper place in the capital (which is 850 km far from our region...) and started the process of organizing the referral . We will continue support this case hoping for a quick surgical solution which will make the real difference in the life of this child.

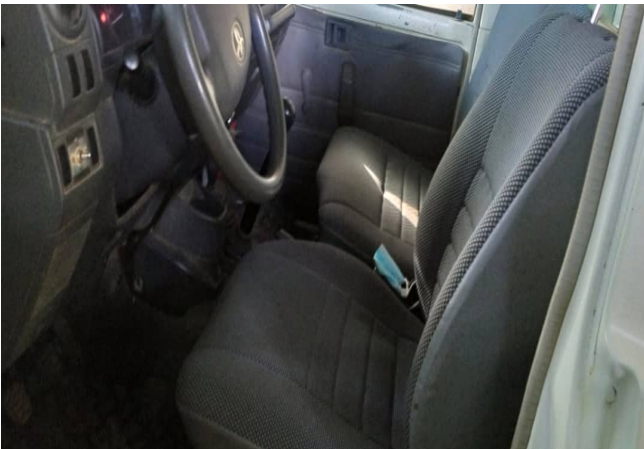

Ambulance

spare parts

The broken seats have been changed and covered
